Testimonials :: Robert Busse

"The combination of his knowledge, unbridled energy and left-of-center humor has proven to be the ideal potion essential to the creation, execution and completion of innumerable successful projects. One glimpse of his portfolio will tell you that both sides of his brain are vying for the spotlight and with 15+ years of technology & design under his belt it looks like we have a tie. As a technology strategist and graphics sorcerer, he has concentrated his wizardry on the development of identity programs, print design, packaging, tradeshow, POP, advertising layouts, direct mail programs, e-commerce, Flash Animation and Internet solutions as well as product design and development."
